

MANTASHA PARWEEN

AI / ML | Generative AI & LLM Applications

Bhubaneswar, Odisha | 9438133847 | pmantasha06@gmail.com

[linkedin.com/in/mantasha-parween-156765314](https://www.linkedin.com/in/mantasha-parween-156765314) | github.com/mantashaamin/padhai-dost | padhai-dost.hashnode.dev

PROFILE

B.Tech CSE student (Class of 2028) focused on AI/ML, with hands-on experience building LLM-powered applications and classical machine learning pipelines. Built and shipped Padhai Dost, an AI study companion for Indian school students, and documented the journey publicly through blogs and LinkedIn.

PROJECTS

Padhai Dost — AI Study Companion

Selected for Google Cloud “Meet the Builders” (APAC)

Python | Streamlit | LLM APIs (OpenRouter) | PyPDF2 | Git/GitHub

- Independently built an AI study companion that explains NCERT Class 6–10 topics in Hinglish, motivated by younger siblings struggling with English-only textbooks.
- Integrated LLM APIs with prompt-engineered workflows for a Hinglish explainer, notes generator, and NCERT-style practice question generator.
- Built a PDF-to-practice-question pipeline with PyPDF2 for text extraction; explored RAG concepts to ground responses in uploaded chapter content.
- Managed API keys securely with environment variables; wrote build-in-public posts on Hashnode and LinkedIn to share technical lessons.

Sentiment Analysis of Google Play Store Reviews

Team Project | ML Lab

Python | Bag-of-Words | Logistic Regression, KNN, Naïve Bayes, SVM, Random Forest, AdaBoost, PCA | Streamlit

- Building a sentiment classifier on ~10,600 unique Kaggle Play Store reviews, comparing multiple classical ML algorithms on the same bag-of-words features.
- Analysing model behaviour on noisy neutral-class labels; developing a Streamlit front-end for live predictions.

Blood Donation Management System

Java | JSP | JDBC | PostgreSQL

- Designed and built a full-stack system with role-based donor and admin modules, CRUD workflows, and blood-group/city search over PostgreSQL.

EXPERIENCE

Frontend Developer Intern — CogniFYZ Technologies

Apr 2026

- Independently delivered a Productivity Dashboard (task manager + live weather via OpenWeather API) in JavaScript, deployed on GitHub Pages.

TECHNICAL SKILLS

AI & ML: Generative AI, LLM Applications, Prompt Engineering, RAG (concepts), Supervised Learning, Text Classification, PCA, Responsible AI

Languages: Python, Java, JavaScript, C

Tools & Web: Streamlit, Git, GitHub, REST APIs, Postman (API Testing), PostgreSQL, HTML, CSS

CERTIFICATIONS

Career Essentials in Generative AI — Microsoft & LinkedIn

Sep 2026

Ethics in the Age of Generative AI — LinkedIn Learning

Sep 2026

What Is Generative AI? — LinkedIn Learning

Sep 2026

Your Top AI Questions Answered: AI Literacy for Everyone — LinkedIn Learning

Sep 2026

LLM Using Python — Silicon University × Vigor Summer Internship Programme

May–Jul 2026

Google Cloud Gen AI Academy — APAC

Mar 2026

Getting Started with Artificial Intelligence — IBM

Mar 2026

Python Programming & Application — Internship Program, Syllogistek Systems Pvt. Ltd.

Jun–Jul 2025

EDUCATION

Silicon University, Bhubaneswar

2024 – 2028

B.Tech, Computer Science & Engineering | CGPA: 7.89/10

ACTIVITIES

- Smart India Hackathon — Team participant; built and presented a working solution under a fixed deadline.
- TEDxSITB — Attendee (Dec 2024).
